

A Three Day National Skills Training Workshop for Management of Special Education Needs, Emotional and Behavioral Problems in Children

18th, 19th & 20th April, 2013 at India International Centre, Annexe, Max Mueller Marg, New Delhi.

As we all know children need to be healthy, happy and harmonious to evolve as productive and contented adults. To give them a happy childhood, we need to know how they think and what they can do at different ages so that we can help them with the difficulties they face as part of growing up. Schools must recognize and respond to the diverse needs of the students, accommodating both different styles and rates of learning thereby ensuring quality education to all through appropriate curriculum, organizational arrangements, teaching strategies and resource support. **Children with learning difficulties or poor academic performance should not be labeled as per preconceived notion. The teacher should be skilled to notice and assess the various symptoms and difficulties and help take necessary steps to assist their learning.**

Expressions India, AISCAP & Venkatesh Trust in association with India International Centre, New organized a **Three Day on National Skills Training Workshop for Management of Special Education Needs, Emotional and Behavioral Problems in Children on 18th, 19th & 20th April, 2013**. Expressions India and Venkatesh Trust for Education and Excellence are well renowned organizations, committed towards enhancing quality & excellence in education and are supported by the **academic endeavours of AISCAP** for enriching the school counseling and remedial services. **Keeping in mind the increasing awareness about the early identification and intervention for behavioral and learning problems in the classroom, for the pre-primary, primary and middle school teachers was organized with an objective to offer extensive knowledge base, skills and basic intervention strategies.**

The Three day programme will have interactive sessions supported by elaborate case studies, group work and scientific lectures on the following salient areas

<i>The Early Development & Implication for Later Difficulties</i>	Role of a teacher in providing Sensory Stimulating Environment
<i>Common Emotional & Behavioral Problems in Children</i>	Identification & Techniques for Classroom Management
<i>Learning Disability and its differentials</i>	Classroom Indicators and Basic Interventions
