

SMARTGRAM PROJECT INITIATIVE BY RASHTRAPATI BHAVAN

Teacher's Training Workshop On Common Emotional, Behavioral And Learning Problems In Adolescence & Mobile Classroom Education Van Visit Kadarapur (July 2017)

The Smartgram next step programs, Kadarapur Cluster workshops started yesterday via **The MOBILE CLASSROOM EDUCATIONAL VAN**. The Expressions India faculty conducted the training at GPS Government School, Kadarapur on 28th of July 2017.

Goals

The Student's workshop included topics such as health, hygiene and communicable disease with students of grades 7 and 8. Approximately 130 students were present which were divided into 6 groups. They were shown videos regarding "helping each other" and "clean India, green India" which was followed by discussions.

Following are the Learning Outcomes for Students

1. Importance of health and hygiene, what are communicable diseases and how they spread.
2. ways of maintaining them, "Swachhh Bharat Abhiyaan" -its importance and how to keep environment clean;
3. While talking about cleanliness of the environment, issue of substance abuse was also introduced.
4. Senior girl students also sought counseling on common adolescent concerns.

Teacher's training program in Govt. Senior School at Kadarapur on 28/07/17.

Following are the Learning Outcomes for Teachers:-

- a. Why is it imperative to understand the new age adolescent?
- b. Identifying and Understanding behaviours, such as truancy, bullying, lack of academic inclination, substance and alcohol abuse and its prevalence.
- c. Need for clinical appraisal and assessment.
- d. Role of teachers beyond class room teaching.

It would mainly pertain to taking a feedback on their understanding and identification of problems in learning and behaviours for better adjustment and progressive positive consequences.
