

Teacher's Training Program at Abheypur Village on 28th October, 2017

The Workshop was held at Government High School at Abheypur Village. The village has an approximate population of . Sarpanch (Mr.) and the Principal (Mrs.) of the school helped organize the workshop. It was attended by 10 teachers of Govt. High School as well as Govt. Primary School.

Sessions were interactive and the topics discussed were-

- Understanding the importance of Classroom Management was focused on in the interactive session.
- Providing a non judgmental environment and interaction can aid identification of problematic behavior of children.
- Relationship issues amongst adolescence must be dealt sensitively were emphasised.
- Ways to Identify developmental disorders and learning disabilities
- Importance of the role of family-school partnership in the psychosocial development of children and understanding peer influence.
- Assisting and helping students to manage anger and overcome frustration.
- The importance of teachers role as a Counselor and facilitator.

Methodology used-

- Audio visual presentation on key childhood and adolescent development, developmental disorders and learning disabilities
- Brain storming on cultural norms and gender issues.

Learning outcomes and the road ahead-

- A brief was provided on how on the basis of certain expressed behaviors by children an early identification could be done of the problem by the teachers.
- Psycho-social education of parents was emphasised on since issues of child marriage are still prevalent and girl child drop out happens due to this reason.
- Substance abuse counseling was suggested to be an integral part of training since age of substance abuse seems to be decreasing.
- Clinical assessment and follow up can lead to a successful diagnosis and intervention.
- Child's and the care givers psychosocial and emotional wellbeing both are important for better, progressive and enhanced facilitation of children in today's era.
