

Teacher's Training Program at Dhunela Village on 6th Nov, 2017

Teacher training workshop was held at Government Senior Secondary school at Raiseena Village on 6th Nov 2017. The Principal of the school helped in organising the workshop. The trainers arrived before time to fine tune on agenda and coordination with the teachers. It was attended by 10 teachers of primary, secondary and senior secondary school.

Sessions were interactive and the topics discussed were-

1. To know the impact of coexisting conditions on exceptionalities on student with learning disabilities.
2. How expressions of behaviors of children can aid identification of Learning disability and problematic behavior.
3. To understand the kind of learning difficulty children are facing on the basis of following indicators like writing, reading, mathematical calculation, pronouncing words etc.
4. When child seeks professional help.
5. How to diagnose LD students and as a teacher how they can work for a child for his/ her progressive path.
6. Knows how social and emotional development may differ in students with learning disabilities.
7. Knows strategies for promoting students' development of self-regulatory skills.

Methodology used-

1. Audio visual presentation on learning disabilities
2. Brief explanation given regarding building blocks of vocabulary, fluency and reading comprehension in light of skill development and strategies for successful and enjoyable reading experiences among students.

Learning outcomes and the road ahead-

1. Teachers can demonstrate underlying causes of academic failures in terms of intellectual deficits, learning disabilities such as dyslexia or working memory constraints that hamper learning despite the use of appropriate and effective classroom learning method.
2. Teachers will be more informed when speaking to parents about their child's learning difficulties at school.

3. Interventions through clinical assessment and follow up can lead to a successful diagnosis.
4. Psychosocial and emotional wellbeing of the care givers along with the child is very important for better, progressive and enhanced facilitation of children.
5. A culture of timely identification and support in schools will ensure students with learning difficulties do not miss opportunities for academic achievement during important school year.

Other points mention by teachers:-

- 1- As workshop was conducted on learning disability, during workshop discussion was also held on casteism by teachers as 90% of population is there of Muslim children in their school all these students always use to talk about jannat and they spend 6hrs in madrasar after school students do not complete their homework and they also not take interest in their studies the students in this school are highly influence by religious activity teachers are highly concern for students education they try their level best to make their parents understand the importance of education , in this direction teachers want if they can get help and these students and parents can be counsel.
