

Student Health and Hygiene Report in Goshgarh Village (Government Secondary School) on 23rd November,2017

There were an approximate population of 40 students (including both boys and girls) from classes 1st to 5thstd between 7 to 10 years. Students were educated about the meaning of cleanliness and hygiene and how it is supposed to be maintained personally and environmentally. They were given tips on the maintenance of oral hygiene, hair hygiene, sleep hygiene, water hygiene and food hygiene. Information about the cause of diseases like malaria, dengue, chickenpox, chickengunna, diarrhea were given and students were told about the importance of changing water in coolers , fridges and water tanks regularly. Significance of washing hands on an hourly basis, using soaps and sanitisers, clean towels and sleeping on clean bedsheets were elaborated on. Information was also given for emphasizing more on eating home food rather than eating outside oily food.
